SERVICE

SUPPORT

Pumps and Gearboxes offer a wide range of products and services working alongside some of the worlds leading manufacturers.

Pumps and Gearboxes stock a wide range of products in our West Yorkshire premises, supporting, serving & offering solutions to industry.

CHEMICAL & PHARMACEUTICAL

Pumps & Gearboxes offer an extensive range of pumps for the chemical industry, with requirements and certification including Industry-standard requirements such as ATEX, ISO2858, hygienic construction, 3A, FDA or EHEDG approved.

- Mag Drive
- Chemical Resistant Mechanically Sealed
- AODD or Air Operated Double Diaphragm
- Vertical Immersible
- Geared Motors for Agitator / Reactor Applications
- Specialists in Replacing Obsolete & Legacy Equipment
- Asset Management

BUILDING SERVICES

Building services applications generally consist of pumps and pump sets to either boost pressure or remove waste water. Pumps & Gearboxes can offer products for the entire industry, including:

- Water Booster Sets
- Bespoke Booster Sets with Tanks (Cat 3-5)
- Bespoke Sets with GRP Enclosures
- Small Cat 5 Pump Sets
- Pressurisation Units
- In-Line Circulators
- Submersible Drainage and Sewage Pumps
- Packaged Waste Water Pumping Stations

FOOD & BEVERAGE

We have a wide range of pumps available for the food industry, from water supply to product transfer, hygienic pumps and vacuum pump systems.

- Centrifugal Pumps
- Hygienic Pumps
- Rotary Lobe Pumps
- Peristaltic Pumps
- Vacuum Pumps
- Stainless Steel Hygienic Geared Motors

FACILITIES MANAGEMENT

Pumps & Gearboxes technical team can size up replacement units and specify new units on site refurbishment applications. We can undertake site visits before quoting and offer supply, installation and commissioning of:

- Booster Sets
- End Suction Pumps
- In Line Circulators
- Submersible Pumps
- Industrial Gearboxes, Motors & VSDs

WATER & WASTEWATER

Water and wastewater treatment requires a varied range of pumps and equipment to transfer water with solids, deionized water, effluent and more. Pumps & Gearboxes can supply whatever your process requires.

- Submersible Sewage Pumps
- AODD Pumps
- Stainless Steel Pumps for RO
- Gearboxes for Agitator Units
- Submersible Mixers
- Pressure Booster Sets

OIL & GAS

Pumps for the oil & gas industry are required to transfer viscous and corrosive fluids. Our range of pumps for this industry include:

- AODD Pumps
- Gear Pumps
- API 610
- Mag Drive

MANUFACTURING

Whatever you need to keep your production running, Pumps & Gearboxes can help.

We supply:

- Process Pumps
- Water Transfer Pumps
- Industrial Gearboxes
- Asset Management

PAPER, PRINT AND PACKAGING

Paper, pulp, packaging and print can involve moving fluids containing sludge, chemicals and large volumes of wastewater.

Our scope of supply for these industries includes:

- Mag Drive Pumps
- Chemical Resistant Mechanically Sealed Pumps
- AODD or Air Operated Double Diaphragm Pumps
- Open Impeller Self-Priming Pumps
- Peristaltic Pumps
- Centrifugal Pumps
